The equipment needed to start brewing at home is fairly minimal. You probably already have a large stock pot and a mixing spoon — that takes care of your brew kettle. You'll also need a fermenter, some tubing to move the beer from one place to another, and a way to package the beer, which usually means getting a bottle capper.

Homebrewing authors Karl F. Lutzen and Mark Stevens offer great ideas, from home-sized versions of commercial brewery equipment to simple gadgets that make brewing easier or safer. To help brewers choose the best tools, they offer a balanced evaluation of the advantages and drawbacks of each.
