This guide is intended to bring to the diver the most popular and unique dive sites of the Mariana Islands. Guam, Rota and Saipan are places known for their wide array of beautiful hard corals, variety of fish and other marine life and plethora of invertebrates.

Is there something similar for Guam? I bought Tim Rock's "Diving & Snorkeling Guide to Guam and the Northern Mariana Islands 2016". While it does a good job of discussing dive sites that are reachable by boat, it's practically useless for me as I want to do snorkeling straight from the beaches.
