"Erte's Theatrical Costumes in Full Color" offers 49 plates from 1911 to 1975, with captions, of the work Erte did for theatrical productions, where his imagination was most unfettered and where his popularity lasted considerably longer than it did in the real world of high fashion.

A fan-bearing slave girl, a worshipper of Horus, Ceres, a mermaid, and a gypsy dancer are among the characters depicted in this colorful volume. Spanning the years 1911–1975, these 49 exotic costumes were designed and illustrated by the legendary designer for Folies Bergère shows, editions of George White's Scandals, ballets, and other popular entertainments.

As dazzling as his color graphics, as witty as his fashion designs, Erté's Theatrical Costumes in Full Color deserves the attention of all costume designers, artists, theater people, and costume aficionados. Fan-bearing slave girl, worshipper of Horus, wife of a Russian boyar, and 46 other costumes (1911-75). 49 plates in full color. Captions.

Erte's Theatrical Costumes in Full Color by Erte is a free NetGalley ebook that I read in early December. Originally published by Dover in 1979, this book focuses on the costumes of both the lowly chorus girl and the best-of-the-best showpieces, complete with spindly hands, almond-shaped faces, coy yet jubilant expressions, swayed hips, bow lips, and daringly vibrant color.

Erté's Theatrical Costumes in Full Color is a great coffee table-book, in all the best ways. Coffee table-books are often ridiculed, as if being placed on a coffee table implies a sense of neglect or 'I don't really care'-attitude. In our house, the books placed on the coffee table were treated with a completely opposite attitude.

As dazzling as his color graphics, as witty as his fashion designs, Erté's Theatrical Costumes in Full Color deserves the attention of all costume designers, artists, theater people, and costume aficionados. Fan-bearing slave girl, worshipper of Horus, wife of a Russian boyar, and 46 other costumes (1911-75). 49 plates in full color. Captions.
