Town & Country Luxury Fireplaces A Town & Country Luxury Fireplace is more than just a fireplace. It is an architectural feature, a sophisticated statement about a home — and an investment that will retain its value for years to come. Every one of our fireplaces is an industry leader in design and innovation. And ... Read More

These two types of fireplaces typically use natural gas or propane to create heat that is warm enough to heat more than just your front room. If you like the traditional look of a log fire, then many modern gas fireplaces also have artificial logs that give indoor fireplace the look and feel of a wood stove.

In addition to gorgeous photos of a full range of fireplace styles, materials, and decor for indoor and outdoor fireplaces and stoves, solid information on practical design considerations--maintaining a fireplace or stove, remodeling an existing fireplace, safety, converting a wood-burning fireplace to gas, and the like--are explained in detail ...

An indoor structure built using bricks, stone and metal designed to hold or contain fire in it is known as Fireplace. The main purpose of constructing a fireplace is to keep a house warm and create a relaxing ambience.

Electric fireplaces let you savor those cozy autumn nights while also heating up your living space. Just by plugging the electric fireplace into your wall, your home is matured into a well lived (and warm) space. Go make yourself some hot chocolate and let's talk about the different ways you can get the most out of your new fireplace.

Whether you crave a fireplace as a source of heat or a center of ambience, Fire Places can help you sort through the choices. Gitlin, an architect, provides a thorough look at types of fireplaces and their construction, as well as the many materials and design possibilities for indoor and outdoor fireplaces.
