This eBook has been written to help women get pregnant, even if they are over 40. The author of this book Lisa Olson got pregnant after years of infertility at age 43 and 45. She researched the subject of infertility inside out and found a plan that anyone can follow no matter what fertility challenge.

What helps to get pregnant faster? Sperm can live up to five days after they've left the man's body, but ideally the woman's egg needs to be fertilised within 12-24 hours after she has ovulated. You may want to keep an ovulation chart in order to track your cycle. Learn about your body and how it works.

that of getting pregnant each month (25%), if it took you four times to come up heads, that is the same luck as having to try 8 months to get pregnant! So if you have been trying for four months or more, don't give up hope.

Step 1: Go Off Your Birth Control—Ahead of Time. Take a pass on your prescription a few months before you plan to start trying, says Christopher Williams, M.D., a reproductive endocrinologist in private practice in Charlottesville, Virginia, and author of *The Fastest Way to Get Pregnant Naturally*.

The odds of getting pregnant after ovulation are quite slim but completely possible. Find out if you are one of the few to actually get pregnant during this short window of time. [READ MORE](#). [Pregnancy Symptom Alternatives](#).
