You'll have never seen a house like this one before! (with floor plans) Amy Buxton 07 May ... The architects that created this spectacular home clearly had a lot of fun playing with space, proportion and, to a certain extent, optical illusions, but it's the multi-level design, centered around a striking courtyard that we think will really ...

Scale, proportion, open plans, and flexible spaces make a smaller house look and feel like its million-dollar neighbor. As for proportion and scale, Powers suggests using standard building material measurements as the module for laying out floor plans. "Plywood comes in 4x8 sheets and lumber comes in 2-foot increments," he says,...
