from The Magazine ANTIQUES, July/August 2013. For generations of Virginia musicians, dulcimer (or dulcimore) has described a family of instruments with three characteristics: a long, hollow neckless wooden soundbox (with curved or straight sides); multiple wire strings (usually just three or four today) about the same length as the soundbox; and wire frets (usually fifteen) laid out to play ...

By Gregory Cerio We have important news: our publisher, Don Sparacin, and I have acquired The Magazine ANTIQUES from Art News Media, LLC. We are now independent, and we intend to go places.
