A structured product, also known as a market-linked investment, is a pre-packaged structured finance investment strategy based on a single security, a basket of securities, options, indices, commodities, debt issuance or foreign currencies, and to a lesser extent, derivatives. The variety of products just described demonstrates that there is no single, uniform definition of a structured product.

Oppenheim and Commerzbank since 1992 and became an internationally known FX Options expert in both Academia and Practice. Uwe holds a PhD in mathematical finance from Carnegie Mellon University and has been appointed a professor of Quantitative Finance at HfB-Business School of Finance and Management in Frankfurt, where he is in charge of the Master Program in Quantitative Finance.
