focus is the search for better solutions for pension policy. The United States has a federal system of government, where states play an important role in the development of policies in some areas.

Turner identifies the current problems facing pension policy for U.S. employer-provided pension plans and recommends solutions to those problems based on his examination of pension systems in ...

Pension Policy: The Search for Better Solutions, by John A. Turner, November 2009. "John A. Turner tackles the current problems facing pension policy for U.S. private sector employer-provided pension plans.

The pension system is supposed to provide secure and adequate retirement income. In both respects, the U.S. system needs better solutions. With the decline in defined benefit plans and the increasing reliance on 401(k) plans, future retirees will have less secure and less adequate retirement income than current retirees.

Pension policy : the search for better solutions. [John A Turner] -- Identifies the current problems facing pension policy for U.S. employer-provided pension plans and recommends solutions to those problems based on his examination of pension systems in other ...
