PeopleWork: The Human Touch in Workplace Safety [Kevin Burns] on . *FREE* shipping on qualifying offers. Workplace safety is failing. Despite better procedures now in place on the job, people are still getting hurt. The problem lies in our thinking. We must shift the focus from rules to relationships. In PeopleWork

PeopleWork: The Human Touch in Workplace Safety. Employees and contractors should want to do safety voluntarily - not to be forced into it. But that's not how it usually works. And that frustrates you. After all, you want to be a respected safety leader. You want to be able to connect with your people and lead them to do the right things without being heavy-handed.
