Get this from a library! Rethinking cultural competence in higher education : an ecological framework for student development. [Edna Breinig Chun; Alvin Evans]

At the heart of Rethinking Cultural Competence in Higher Education: An Ecological Framework for Student Development (2016) is the notion of using ecology to help describe the key interactions that happen throughout parts of the college infrastructure. In using this academic subject and, more pointedly, examining the science of how individual parts relate to their broader environment, Chun and Evans help to bring life to an important and evolving topic.
