

Download Science Firsts From The Creation Of Science To The Science Of Creation

Among those are the privileged few who were the first to glimpse new ideas, break new ground, and make unprecedented discoveries-many of which changed the course of Science Firsts: From the Creation of Science to the Science of Creation | ScienceWriters (www.NASW.org)

Science Firsts tells the engaging and inspiring stories of thirty-five landmark scientific discoveries. From the first accurate prediction of an eclipse in 585 b.c. to the cloning of Dolly the sheep, science writer Robert Adler clearly explains the context and importance of these discoveries, allowing the reader to peer over the shoulders of ...

Science Firsts is truly a book about how scientific discovery changed the world. It is a fascinating read and I can highly recommend it to students of science, teachers and the casual reader who has an interest in progress itself. After reading this book, I think I might be ready to read about "the theory of everything." ~The Rebecca Review
